FLASHCODE
THE COMPLETE GUIDE

Flash Code

Hello participants, All of you are most welcome to the Flash code event. This coding contest is mostly based on arrays, strings, problem-solving, matrix, and a few questions from data structures. As the contest name says, it is not only a coding contest but also a test for their quickness of brain and fingers in solving the codes in a limited amount of time and you will be able to challenge yourself to push the limits.

This event will be conducted through the Hacker earth portal and there is only one screening round in that portal. Participants will be given 30 questions in which each question will have 50 marks.

Coding topics:

- Arrays, strings, matrix, and data structures.

Instructions:

- There is only one screening round in the HackerEarth portal.
- Discussing Flash Code's problems or any aspect of the problem, on any other platform on the web, on identification, could lead to disqualification. Almost all languages are supported in this Flash Code contest.
- Participants will be provided 120 minutes and a total of 30 questions. In case the time limit is exceeded, the answers will be auto-submitted.
- You can access the test when it starts and attempt it before the test ends.

- Once the test starts, you cannot pause it. The test will run continuously for 2 hours.
- The link for Flash Code event will be sent **3 days prior** to the commencement of the event, via **email**.
- Before you take the Flash Code test on 15.09.2021 @ 01:00PM, we recommend that you take the practice test a few days before the actual test.

Judging criteria:

- There are a total of 30 problems and all problems have the same points allotted to them. Participants are ranked according to the most problems solved. The tie will be compensated according to the time consumed to solve the problems.
- The **top 2 scorers** will be awarded (Both cash prize and Certificate of Merit).

Test details:

- Starts at: 15, Sep 2021 (Wednesday) @ 1:00 PM.
- Ends at: 15, Sep 2021 03:00 PM IST.
- Test duration: 2 hours.

Important Dates:

Commences on **15.09.2021 @ 01:00 PM**

Last date for registration: **10.09.2021 within 6:00 PM**
